

PRINTING PSAP

To print webpage with PSAP table:

1. Open Microsoft Word
2. Go to page setup under file and set all margins to 25 pts. Or ½ inch
3. Set orientation to landscape.
4. Set paper size to 8 ½ x 14
5. Click “OK”
6. Open PSAP webpage
7. Select data beginning with PSAP Name all the way through table.
8. Copy
9. Go to Word document and paste
10. Save
11. Print.

I used Microsoft Word to perform this task; however, this may work just as well with other word processing programs.
